Experienced engineer / developer (Société Générale, Thales, Carrefour, Go Voyages, OECD, startups...). I ship web applications **end-to-end** — design, code, deployment — with Next.js / Node and an integrated AI workflow. Result: high-performance products, delivered fast, for local and international clients.

SKILLS

Front

JavaScript, TypeScript, React, Next.js, Tailwind CSS, Three.js / WebGL, HTML/CSS, Figma

Back

Node.js, Python, C# / .NET, MongoDB, REST APIs

AI

Model fine-tuning, AI chatbots & workflows, content generation, data mining

Product

UI/UX, Chrome extensions, mapping (MapBox / GPX), autonomous full-stack deployment

LANGUAGES

French — native

English — professional

SELECTED PROJECTS

Climate Observatory

NASA / NOAA / ECAD data · interactive climate visualizations

AstroAlgos

3D WebGL solar system · astronomical algorithms

tele.guide

TV EPG grids · Next.js · no tracking

Alpine Plants

AI plant identification (Python fine-tuning)

EuroVelo

16 cycling routes · MapBox / GPX

KeepQuotes

Chrome extensions (TypeScript) · quote capture

EXPERIENCE

Web agency director

Sep 2016 → present

LR (Blue Planet Web) · Chamonix

- Design and ship complex web apps with React / Next.js / Tailwind / Three.js
- Advanced UI/UX and interactive 3D experiences; AI pipeline built into delivery workflow
- Production products for local and international companies (see Projects)

Software architect & project lead

Apr 2012 → May 2014

Plug Wine

- Led development of an automated website-generation platform
- Architecture, team coordination, deployment and scalability

Backend developer

Oct 2010 → Jul 2011

Go Voyages

- C# web service for flight booking: reliability, scalability, external integrations

Full-stack developer

Mar 2010 → Oct 2010

Société Générale

- Rebuilt a trading application (performance, scalability, UX)
- Advanced directory search UI with dynamic filtering

Web developer

Feb 2009 → Feb 2010

OECD

- Full front + back website; cross-disciplinary collaboration

JavaScript developer

Aug 2007 → Sep 2008

Carrefour

- First major grocery e-commerce platform in France (.NET, JS, CSS, HTML)
- Responsive design and cross-browser compatibility
